

I am a recent widow, and before I signed up for the "NO CALL LIST" here in Indiana, I was receiving anywhere from 10 to 20 unwanted calls per week. After I signed up I now receive maybe 1 call per week. Some weeks go by without any calls. It has been wonderful. Please do not change this law. It's working very well. Perhaps, you could adopt the same law that Indiana is using. I don't want those calls to start over. Try to put yourself in my place for just a minute. As a widow, I was receiving all kinds of calls from businesses wanted to sign me up for credit cards, new phone services, mortgage companies, even donations from my life insurance. Many of these companies "prey" on people like myself. Don't allow this to change. Thank you for listening.
